

A reporting and analysis solution for all of your operational data. Collate every data format from every location to gain a deeper insight into your manufacturing enterprise and enhance your Microsoft SSRS® reporting capabilities with ATS Advanced Reporting Services.

## ● Analyze All Your Data

- Gain deeper insight by analyzing all of your production data in one place.
- Combine data from multiple sources, no matter where they are in the world.
- Collate multiple data types: attribute, dimensional and operational data can all be used together.

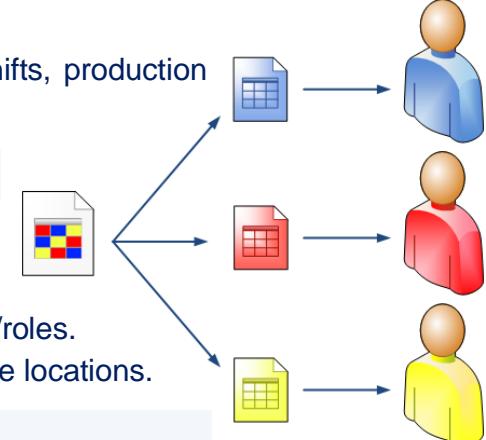

## ● Designed by Users for Users

- An intuitive user interface gets you up and running in no time.
- Create separate report configurations for different users/roles.
- Store your report parameters for later use.
- View multiple reports side by side – compare shifts, production lines, months and much more.

## ● Automatic Report Generation

- Save time and money with automatically generated reports.
- Email reports at regular intervals to specific users/roles.
- Automatically send generated reports to shared file locations.

## ● Complete Report Customization

- Design your own reports from the ground up.
- Or let us do it for you – Benefit from the ATS team's knowledge and experience in best-practices and industry standards.
