

The digital lean suite

The daily operating rhythm, digitised.

Factorise digitises lean daily management with live data, structured actions and improvement work that actually sticks.

Challenges we help you overcome

✓ Physical boards and yesterday's slides

Information is outdated before the meeting starts.

✓ Actions die in spreadsheets

No ownership, no follow-up, no closure.

✓ CI projects lose momentum

Good ideas stall without structure and visibility.

**Lean routines already exist.
The action trail is often weak.**

What this suite helps you run

1. Performance reviews (SQDEC)

Live KPI boards for the meetings.

2. Daily actions (4C)

Structured actions with owner and close

3. Checklists

Standart work, audit trail, reusable templates

4. Gemba walks

Mobile observations turned into actions.

5. Daily boards

Shift coverage, assignments and absence visibility.

6. Projects

Improvement work tracked from idea to result.

Impact you can expect

30%

Productivity boost

Meetings shorter, actions tracked, problems solved at the source.

35%

Quality improvement potential

Digital Lean can support scrap reduction and yield improvement.

75%

Better cross-shift collaboration

Seen with digital SQDEC boards and action tracking.

Start with the lean routines your teams already use every day.

Build visibility, ownership and continuous improvement from there.

Discover how advanced integration solutions can transform your production and manufacturing processes. **Contact us** today to find out more about how we can help you integrate your systems.
